PROFESSIONAL SUMMARY

B.Tech in Artificial Intelligence and Data Science with knowledge of Python, SQL, DBMS, and Data Structures. Skilled in Data Analytics, UI/UX Design, and Web Development through academic projects and internship experience. Eager to contribute technical expertise, analytical thinking, and problem-solving skills in a professional environment.

EDUCATION

B.Tech Artificial Intelligence and Data Science **2023–2027**
CMS College of Engineering **CGPA: 8.62**

Higher Secondary Certificate (HSC) **2021–2023**
State Board **80%**

Secondary School Leaving Certificate (SSLC) **2019–2021**
State Board **90%**

INTERNSHIP

UI/UX Design Internship **(July 2026)** **Corizo**

Completed a UI/UX Design Internship at Corizo, where I gained practical experience in designing user-friendly digital interfaces using Figma. Worked on user research, wireframing, prototyping, and responsive UI design while applying user-centered design principles. Collaborated on real-world design tasks, incorporated feedback to improve usability, and strengthened problem-solving, communication, and teamwork skills in a professional environment.

PERSONAL PROJECTS

College Event Management System HTML, CSS, JavaScript, PHP, MySQL

Developed a web-based College Event Management System to simplify event registration, scheduling, and participant management. Designed separate modules for students and administrators to efficiently manage event details, registrations, and participant records. Improved event coordination by providing a centralized platform with an intuitive and user-friendly interface.

Ludo Game in Python Python, Object-Oriented Programming

Developed a console-based Ludo game using Python by applying Object-Oriented Programming principles. Implemented dice rolling, player movement, turn management, game rules, and winning conditions to provide an interactive gameplay experience. Enhanced logical thinking, debugging, and problem-solving skills through game development and testing.

Nutri Tracker Python, Flask, HTML, CSS, JavaScript, AI

Developed an AI-powered Nutri Tracker to identify food items from uploaded images and provide detailed nutritional information. Integrated AI-based food recognition to estimate calories, protein, carbohydrates, and fat content while presenting results through a responsive and user-friendly interface. The application helps users monitor their daily diet and make informed, healthier food choices.

TECHNICAL SKILLS

Programming Languages	Python, JavaScript, SQL
Web Technologies	HTML, CSS
Database	MySQL
Tools	Figma, Power BI, Visual Studio Code, MS Office
Core Concepts	Data Structures, DBMS, Object-Oriented Programming (OOP), UI/UX Design
Operating Systems	Windows, Linux

CERTIFICATIONS & WORKSHOPS

- **UI/UX Design Internship** – Corizo
- **Computer Vision Workshop** – IIT Madras (Top Engineers)
- **Machine Learning Training** – Indian Info Tech
- **Internet of Things (IoT) Workshop** – KSR Institution

Successfully completed technical training and workshops to strengthen practical knowledge in UI/UX Design, Artificial Intelligence, Machine Learning, Computer Vision, and Internet of Things (IoT).

CORE SKILLS

Problem Solving	Analytical Thinking	Teamwork
Communication Skills	Adaptability	Quick Learner

TECHNICAL INTERESTS

Interested in Data Analytics, UI/UX Design, and Web Development. Passionate about building user-friendly applications and transforming data into meaningful insights for effective decision-making.
